

DACA IN THE SUPREME COURT

AN URGENT SOLUTION IS NEEDED

Dreamers are working, studying and contributing to America. Congress must pass a legislative solution to allow them to stay in the U.S. permanently.

IN 2020 WE NEED A LEGISLATIVE SOLUTION

The U.S. Supreme Court will rule in 2020 whether President Trump can end DACA. Depending on the Supreme Court decision, DACA recipients could quickly lose work authorization and protections from deportation. It is urgent that Congress passes a permanent solution to protect Dreamers.

*An estimated **66,000 Dreamers** could have qualified For DACA but were too young to apply (under 15 years old) at the time President Trump attempted to end it on September 5, 2017. Federal courts subsequently allowed current DACA recipients to renew their applications, but did not allow first-time requests.

DACA Recipients should consider applying for DACA renewals as soon as possible - preferably before 2020.
