

Temporary Protected Status (TPS): Fact Sheet

Temporary Protected Status (TPS) is a government protection granted by the Secretary of the Department of Homeland Security (DHS) to eligible foreign-born individuals who are unable to return home safely due to conditions or circumstances preventing their country from adequately handling the return.

When can the DHS Secretary designate a country for TPS?

The Secretary can designate a country for TPS due to:

- Ongoing armed conflict (such as a civil war);
- An environmental disaster (such as an earthquake or hurricane);
- An epidemic; or,
- Other extraordinary and temporary conditions.

Who is eligible for TPS?

TPS can be granted to an individual who is a national of a designated country, has filed for status during a specified registration period, and who has been continuously physically present in the U.S. since a designated date.

What are the benefits of TPS?

During a designated period, TPS holders are:

- Not removable from the U.S. and not detainable by DHS on the basis of his or her immigration status;
- Eligible for an Employment Authorization Document (EAD); and,
- Eligible for travel authorization.

How many individuals are currently granted TPS?

As of September 30, 2024, the U.S. provides TPS protections to about <u>1,095,115 individuals</u> from the following **16 countries**.

#	Designated Country	Approved Individuals
1	Venezuela	505,400
2	Haiti 260,790	
3	El Salvador	174,190

4	Ukraine	63,425

13	Yemen	1,975	
14	Sudan	1,635	
15	Somalia	ia 605	
16	South Sudan	175	

Lebanon's TPS designation was <u>announced</u> on October 17, 2024. There were no approved TPS recipients under this designation as of September 30, 2024.

When do TPS designations expire?

The DHS Secretary can extend TPS after a review of country conditions. A decision concerning an extension should be made at least 60 days before the TPS designation is set to expire. The Secretary can extend the TPS designation for a six, 12 or 18-month period or decide to cancel the designation.

TPS extensions only apply to those who already have TPS status. Foreign nationals who arrive after the designated start date (i.e. "required arrival date") are only made eligible for status if TPS is newly re-designated for their country.

Terminated: Venezuela 2023 TPS Designation

On February 5, 2025, DHS Secretary Kristi Noem <u>decided to terminate</u> TPS protections for Venezuela under the 2023 designation. This move overturned a decision by the Biden administration to extend protections until October 2, 2026. Secretary Noem's decision ended access to TPS protections for up to 472,000 eligible individuals from Venezuela, including about 250,000 active TPS holders. On March 31, U.S. District Judge Edward Chen in San Francisco temporarily blocked DHS' attempt to end TPS protections for Venezuelans under the 2023 designation, extending those TPS protections until the Biden administration's original date of October 2, 2026. The Trump administration appealed the court's decision multiple times. On May 19, the U.S. Supreme Court <u>ruled</u> in a procedural decision that the administration could proceed with ending TPS for Venezuela under the 2023 designation while legal challenges to the decision continue in lower courts. Following the Supreme Court's decision, the district court ordered on May 30 that TPS beneficiaries who received an extension of their status on or before February 5 – when DHS announced it would end the 2023 designation - continue to maintain their status pending resolution of the litigation.

*Note: Pursuant to court orders, under the Venezuela 2023 TPS designation, individuals who received TPS-related employment authorization document or Forms I-797 (Notices of Action) with an October 2, 2026 expiration date <u>on or before February 5, 2025</u> will maintain TPS protections pending resolution of the litigation.

All TPS-related documentation with an expiration date of October 2, 2026 received <u>after February 5, 2025</u> is no longer valid. All TPS-documentation with <u>an April 3, 2025 expiration date</u> is terminated.

TPS Terminations: Afghanistan, Cameroon, & Nepal

DHS announced on April 11 that it <u>would terminate TPS protections</u> for Afghanistan and Cameroon, making more than 17,000 individuals ineligible to work legally in the U.S. and susceptible to deportation. The effective TPS termination date for Afghanistan is on July 15, 2025, and for Cameroon it is on August 4, 2025.

On June 6, DHS announced that it <u>would terminate TPS protections</u> for Nepal. The effective termination date for Nepal is on August 5, 2025. This move will make about 12,700 individuals ineligible to work legally in the U.S. and susceptible to deportation.

Haiti TPS Designation

DHS <u>announced</u> on February 20 that Secretary Noem decided to amend the period of extension and redesignation of Haiti for TPS from 18 months to 12 months, with a new end date of August 3, 2025. Noem <u>stated</u> that the decision restores TPS to its "original status as temporary" and criticized the extension of Haiti and other countries at the end of the Biden administration as attempts to "tie the hands" of the Trump administration. Noem must still decide whether DHS will end TPS protections for Haiti, a decision that will impact close to half a million Haitians eligible for TPS.

What will happen to TPS holders whose countries' designations were terminated?

Once TPS protection ends, a TPS holder <u>will revert back</u> to his or her previous immigration status. For those without legal status in the U.S., they will return to an undocumented status and potentially be subject to removal proceedings.

President Trump attempted to end TPS designations in his first administration for several countries, including El Salvador, Honduras, Nepal, Nicaragua, and Sudan. These decisions faced legal challenges. While the court cases were ongoing, federal courts generally permitted TPS holders to maintain their protections. On September 14, 2020, the U.S. Court of Appeals for the Ninth Circuit allowed the termination of TPS for El Salvador, Nicaragua, and Sudan to proceed. That decision was appealed and, once the Biden administration came into office in early 2021, settlement talks were initiated. On June 13, 2023, the Biden administration announced it was rescinding the Trump-era terminations.

Where do TPS holders live?

TPS holders reside all over the United States. As of September 30, 2024, the largest <u>populations</u> of <u>TPS holders</u> live in Florida (357,895), Texas (124,710), New York (86,665), California (72,585), New Jersey (39,010), and Georgia (41,325).

How do TPS holders contribute to our economy?

TPS holders from El Salvador, Honduras, and Haiti <u>contribute a combined</u> \$4.5 billion in pre-tax wages or salary income annually, as of April 2017. The total Social Security and Medicare contributions of those individuals is estimated at more than \$6.9 billion over a ten-year span.

An <u>estimated 130,000</u> TPS holders work as "essential critical infrastructure workers," with more than <u>94 percent</u> of TPS holders in the labor force as of 2017.
